File type

- Your file should be created in CMYK with the color profile ISO Coated V2
- Special colors are converted automatically
- Create images with a resolution of 300 dpi
- Convert text into paths
- Let images or background colors run to the edge of the data format

- Place text or important elements within the safe distance
- Save file as PDF
- Note that the design must be adapted to the curvature of the cup. The grid stored in the template serves as a guide
- Place the motif in the artwork layer

Warped template for 6 oz Single Wall Paper Ice Cream Cup

- An exact template provided above should be used for the artwork preparation.
- Do not remove "Technical layer", and do not delete or rename "CUT" ink.
- Layouts are accepted in *.pdf format.
- The resolution of images should not be less than 250 dpi.
- You can add bottom imprint to the "Bottom imprint layer". Do not delete white rectangular in "Rectangular" sublayer.
- You can find more recommendations on how to prepare design file correctly on boldcup.eu site - TEMPLATES section.
