File type

- Your file should be created in CMYK with the colour profile ISO Coated V2.
- Create images with a resolution of 300 dpi
- Convert text to paths!
- Run images or background colours to the edge of the data format
- Place text or important elements within the safety margin

- Save file as pdf
- Note that the design has to be adapted to the curvature of the cup.
- Place the design in the artwork layer
- Due to the brown print fabric might occur colour deviations
